Endt. No. 1232/98, dated the 31st August 1933, from the Residency Surgeon, Bangalore.

---

(1) It is understood that Hajee Sir Ismail Sait is at present undergoing medical treatment at Madanapalle. If approved he may be addressed as desired by the -- Residency Surgeon after his return to Bangalore. Col. McPherson stated in his endorsement that he was writing to Hajee Sir Ismail himself in the matter. ~~This~~ The file may therefore be sent, in the meanwhile, to the Residency -- Surgeon U.O. /to kindly state whether any reply has been -- received from Hajee Sir Ismail and if so, what action, if any, has been taken in the matter.

S. Singaroyan

15.11.33

The Residency Surgeon, Bangalore, U.O.

The matter, unfortunately, rests where I did when Col. McPherson's endorsement was sent to you. As I do not know the Hajji, I deem that the likeliest way to influence him would be a request from the Resident or his Secretary to give the pressing question his urgent attention. Col. McPherson, as his physician for many years, enjoys an influence which I cannot claim. 17/11. Lee. C/C

(132)

The entire cost of the Gosha Hospital building was defrayed by Hajee Sir Ismail Sait. Recently the Lady Doctor of the Hospital pleaded the necessity for building a covered corridor between the main block building and the private ward block. Hajee Sir Ismail Sait was asked whether he could see his way to provide funds for building the corridor and he said that he would give attention to it on his return to Bangalore from Madanapalle. In the meanwhile he wanted an estimate of the cost of the covered corridor.

S.N 1 of (A)

S.N.2 of (A)

S N-3 of (A)

(14)

The estimate amounts to Rs.1,436/- but it includes Rs.160/- being the supervision charges due to the Municipal Commission. At the request of Hajee Sir Ismail Sait, the supervision charges were waived by the Commission in the case of the construction of private wards for the Hospital vide S.N.62/a 247-19.

slip (M)

(14)

The estimate may perhaps be sent to Hajee Sir Ismail Sait as it stands leaving it to him to raise the question of supervision charges if he considers its omission necessary.

(15)

It is understood that Hajee Sir Ismail Sait has

not

not yet returned to Bangalore. The estimate may be sent to his Bangalore address and his people will send it to him if he is not expected to be back soon.

Draft submitted.

CORRESPONDENCE.

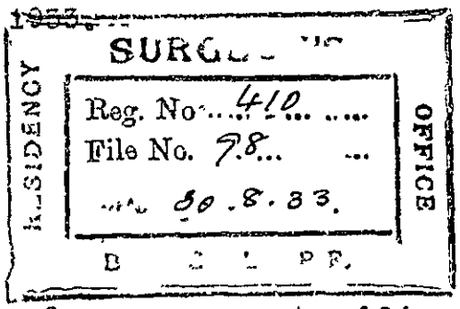
URGENT.

11

No.77/9. Hajee Sir Ismail Sait's Gosha Hospital,

Bangalore.

30th.August 1933.



To,

The Residency Surgeon,

Bangalore.

Sir,

I trust you will pardon me for once more troubling you about the necessity for building a covered corridor between the Main Block of this hospital and the Private Ward Block.

On two previous occasions I approached you on the subject, and you have approved of, and forwarded my request to Hajee Sir Ismail Sait, and I now understand that Sir Hajee has definitely stated that he is unable to do this.

I understand that on one occasion you have put up the proposal to the Hon'ble the Resident, and that it was turned down.

I once more appeal to you to press the matter as I only ask for a necessity. Lately we have had several Midwifery cases in the Private ward Block and several Gynecological cases, and all these cases have to be brought to the Main Block for attention. Women in labour, have often to be brought across at night to the Labour ward for delivery and brought on a stretcher. Our staff of women servants are expected to carry the stretcher, because of the Purdah patients, and this is really too much for them, as the distance is rather long, and patients are heavy, and, besides the patients too strongly object to being carried on a stretcher. During (these) rainy nights, two of my staff while carrying a stretcher slipped but fortunately for them and the patients concerned, their falls were not serious.

I may remind you that I too slipped on this "Katcha" pathway and my fall was more serious than I thought at first. For these many reasons it is advisable to have a proper corridor uniting the buildings and as there is still a little time before the Buildings Budget goes in

will you please do what you can at an early date to help in the matter.

Thanking you.

I beg to remain,

Sir,

Your most obedient servant,

M.C. McNamara

L.R.C.P.&.S.

Medical Officer incharge.

No. 1232/98.

+ il

3118 To Secretary to the Resident

Forwarded and strongly recommended in view of the great difficulties experienced in transferring, by stretcher, patients from the main block to the Private ward Section. Actually the Lady Doctor, who slipped in the unpaved ground, sustained a fracture of the thigh, which being ~~without displacement~~ was only later discovered by X rays. The dangers of the present state of affairs for patients & staff are therefore apparent.

Though I am Sir Kapse's physician, & have some influence with him, I feel that if he were approached by the Secy. to the Resident at the request of the Resident, Sir Kapse will probably give attention to the matter, & find the money, which is needed to complete the arrangements of his present hospital. I am writing to Kapse Sir & myself on the matter today.

Yours sincerely,
Lt. Col. I.M.S.

D.O.No. 543

Dated, the 17th January 1934.

My dear Sir Hajee,

I am desired to state that the Lady Doctor of the Hajee Sir Ismail Sait's Gosha Hospital has pleaded the necessity for building a covered corridor between the Main block of this Hospital and the private ward block.

She has stated as follows :-

"We have had several Midwifery cases in the private ward block and several Gynecological cases, and all these cases have to be brought to the Main block for attention. Women in labour have often to be brought across at night to the labour ward for delivery and brought on a stretcher. Our staff of women servants are expected to carry the stretcher because of the Purdah patients and this is really too much for them, as the distance is rather long, and patients are heavy, and, besides the patients too strongly object to being carried on a stretcher. During rainy nights, two of my staff while carrying a stretcher slipped but fortunately for them and the patients concerned their falls were not serious. I may remind you that I too slipped on this "Katcha" pathway and my fall was more serious than I thought at first".

The

The Residency Surgeon says that actually the Lady Doctor, who slipped on the unpaved ground, sustained a fracture of the thigh, which being without displacement, was only later discovered by X rays. He also lays stress on the fact that the patients and staff of the hospital are liable to danger if the two blocks are not connected by a covered corridor. It is understood that Colonel MacPherson wrote to you about this but as Colonel MacPherson has now gone we do not know whether you promised him any help.

If you could kindly see your way to provide the necessary funds for the building of the covered corridor it would be very much appreciated. Would you kindly let me know if you would be prepared to do so.

Yours Sincerely

17/7

Khan Bahadur Hajee
Sir Ismail Sait, Kt.
